Summary

Creative and detail-oriented UI/UX Designer with 3+ years of experience in crafting visually stunning and user-centric digital experiences. Expertise in interaction design, mockup design, information architecture, and usability evaluation, ensuring a user-centric approach throughout the design process. Specialized in creating responsive designs, ensuring a seamless user experience across various devices and screen sizes. Proven ability to blend artistic design with intuitive user interfaces to deliver engaging and effective solutions. Adept at collaborating with cross-functional teams to transform ideas into compelling and user-friendly designs.

Skills

Design Tools: Adobe Creative Suite (Photoshop, XD, Illustrator), Sketch, Figma, Balsamiq CorelDRAW, InDesign, Premiere pro
Prototyping: InVision, Marvel, Axure RP
CMS: Wordpress
Web Technologies: HTML, CSS, JavaScript (Basic)
IDEs: Visual Studios Code, WebStorm, Sublime Text, Dream viewer
Version Control Tools /Other Tools: GitHub, JIRA, MS Office (Word, Excel, PowerPoint)
Soft Skill: Interaction Design, Mockup Design, Information Architecture, Usability Evaluation, Sketching, Wireframing, Responsive design, Rapid prototyping, Storytelling, Project modeling, Design strategy, User centered design, Style guiding, Logo design, Microsoft Office tools for Brand Development, Documentation and Presentations

Experience

UX/UI Designer, *CLient* Jan 2024 – Present | Remote, USA

- Pioneered interaction design concepts for web and mobile applications, resulting in a 25% increase in user engagement.
- Spearheaded UI/UX design initiativesfor mobile and web applications, resulting in a 20% improvement in user satisfaction.
- Executed detailed mockup designs using Sketch and Adobe XD, contributing to a 30% improvement in design approval rates.
- Collaborated with developers and product managers to implement responsive designs, ensuring a seamless user experience across devices.
- Implemented and maintained a design system, streamlining the design-todevelopment process and reducing production time by 15%.
- Utilized tools such as Sketch and InVision for wireframing and prototyping, facilitating effective communication of design concepts to stakeholders.
- Collaborated with the marketing team to create visually compelling graphics for promotional materials, contributing to a 20% increase in brand engagement.
- Conducted usability testing sessions and implemented design improvements based on user feedback, leading to a 30% reduction in user errors.
- Interacted with clients to understand their design requirements, ensuring successful project delivery and client satisfaction.

UI/UX Designer, *Client* Apr 2019 – July 2022 | India

- Conducted user research through online surveys and focus groups, identifying pain points and improvement opportunities. This led to a 24% decrease in userreported issues within the Student Hub.
- Developed mobile-friendly user interfaces, focusing on responsive design principles.
- Ensured digital products' adherence to WCAG guidelines in wireframe designs, enhancing accessibility for users with disabilities and contributing to a 17% increase in user satisfaction among differently abled users.
- Streamlined the user journey within the Student Hub, resulting in a significant reduction of 3 clicks on average, required to access essential features.
- Conducted user research and usability testing, incorporating feedback into design iterations and enhancing overall usability.
- Redesigned information architecture for existing applications, resulting in a 25% improvement in user navigation.
- Executed web design projects, incorporating responsive design principles and optimizing user journeys, resulting in a 15% increase in website engagement.
- Ensured brand consistency across various digital platforms, enhancing overall brand identity.
- Led information architecture projects, improving navigation and reducing user confusion by 20%.
- Utilized Figma for mockup design implementation, ensuring design consistency across platforms.
- Kept abreast of industry trends and new design tools, contributing to the team's adoption of modern design practices

Education

Master of Science in Human-Computer Application, U*niversity of Maryland Baltimore County*

Bachelor of Technology in Computer Science, *Chandigarh Engineering College*
